The Sanctifica App

As our series of articles on the Divine Office has been pointing out, an increasing number of phone apps has been appearing which cater to the needs of Traditional Catholics.

One relatively new app to hit the scene is *Sanctifica*. Available for both Android and iOS, *Sanctifica* includes information on the Saint of the day, the Traditional Mass Propers of the day, the hours of the Divine Office for the day, Novenas that are appropriate to the time of year, plus a fairly large collection of devotional prayers.

It also includes a map showing Tridentine Mass locations. This list is not all that useful, unfortunately, as it only lists locations, not Mass times, and in the case of metro Detroit, there are errors, omissions, and duplicate listings. Also, while not the fault of the publisher, sites that have been abolished by Archbishop Weisenburger as of July 1, 2025 are still listed. Nonetheless some information is better than none, and hopefully in time users will submit feedback that makes the listings more accurate and useful.

San Francisco Priest Training Report #8

More good news from California: Extraordinary Faith has completed our *eighth* training session in the Archdiocese of San Francisco.

Congratulations to Fr. Edwin Abudho, who celebrated his first Traditional Latin Mass on Wednesday, August 20, 2025 at Star of the Sea Chapel. Fr. Abudho traveled to California from Kenya in part to learn the traditional liturgy from Extraordinary Faith. He hopes to offer the TLM in his home Archdiocese of Kisumu in Kenya.

Congratulations as well to Fr. Nadeem Patras, who celebrated his first Traditional Latin Mass on Thursday, August 21, 2025, also at Star of the Sea Chapel. Fr. Nadeem traveled all the way from his home Diocese of Multan, Pakistan to take this training, with the hope of offering the TLM there upon his return.

Special thanks to Star of the Sea Parish Director of Communications and Parish Life Mariella Zevallos for coordinating the training. Additional training sessions in San Francisco are currently in the planning stages.
